Lost At Sea activity - see Google Classroom for instructions and materials

***to be completed and submitted on Google Classroom by Sunday 5/17**

OPTIONAL ACTIVITIES-

- **Scholastic News** - *Class login code - snoopySHS*

- ***EXTRA* Science Challenge:**

Can you create a kite that flies on a windy day? The kite should have a string attached in order to try flying it outside. Remember that the wind can be very strong, think of ways to make it more durable. Watch a video to see how kites are actually made. Use materials around your house, here are some supply ideas to get you started:

- Assorted types of paper (cardstock, regular, etc.)
- Bamboo skewers or wooden dowels
- Kite string or a lot of yarn
- Scissors and tape
- Tape measure
